

ENDURO QUARTZ

STRENGTH & ELEGANCE

ENDURO QUARTZ STRENGTH & ELEGANCE

Enduro Quartz is a high quality affordable engineered quartz surface product that can be used for both residential and commercial interior building applications. Tough enough to handle wear-and-tear of high traffic areas and elegant enough to add style to any space. Strength and elegance are what we are known for.

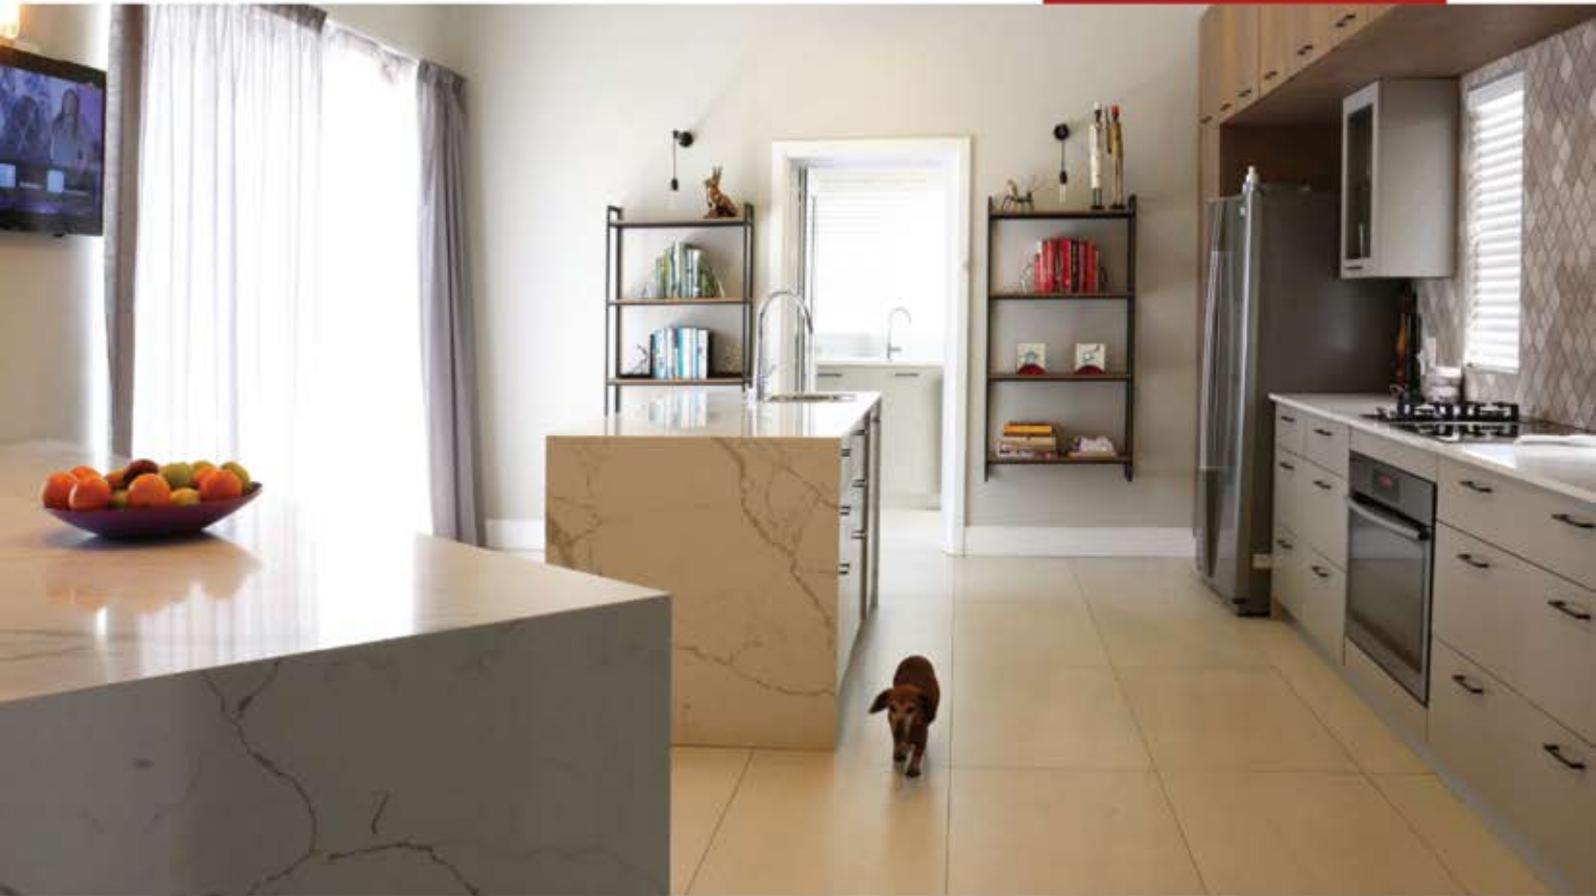

Our product comes with a 15 Year warranty and is accompanied with all the important health and safety certification on an international level. Please ensure that it says Enduro Quartz on the back of your slabs to make sure you receive our Authentic product.

Enduro Quartz surfaces are available in a wide range of colours and designs that will suit your every need. Enduro Quartz is suited for a vast variety of indoor applications. Kitchens, bathrooms, receptions, bars, furniture, featured walls, stairways and floors, just to name a few.

ENDURO QUARTZ STRENGTH & ELEGANCE

Enduro Quartz is a professional Quartz surface available in 20mm and 30mm thickness. We also stock 3020 x 1420 and 3220 x 1620 size slabs. Our range consists of four collections.

Enduro Quartz meets both the American Greenguard and the National Safety Foundation (NSF) standards.

HIGH PURITY

With a high purity of 90-93% natural quartz, Enduro Quartz products provide consistent hardness, durability, and extraordinary colour.

STATE-OF-THE-ART TECHNOLOGY

Enduro Quartz products are manufactured with the latest advanced machinery and technology. This process provides a density average of 2.45 ton/m³. This prevents air and contaminants from infiltrating the stone; resulting in a dense and durable product.

PRECISION

Enduro Quartz maintains exceptional production standards calibrating our slabs within ± 0.3 mm thickness.

CONSISTENCY

Mass production enables consistency in colour and pattern, making Enduro Quartz an ideal choice for large-scale projects.
